

## LEAP MOTOR B10 / 2025 Model 510 Comfort Edition

The Leapmotor B10 is a modern, tech-forward electric SUV designed to deliver high performance at an accessible price point. Built on the advanced LEAP 3.5 architecture, it features a minimalist design, a smart cockpit and efficient performance with a range of up to 434 km.

With Ghana government incentives like 0% import duties for EVs, it makes it a compelling, eco-friendly choice for urban commuters.
